

# Dual Diagnosis Service

Supporting people in their  
recovery

When you're ready!  
call 845 1818  
[www.cads.org.nz](http://www.cads.org.nz)

**Dual Diagnosis** is a specialist service for people adversely affected by substance use and mental illness. **You need to be a client of mental health services** to engage with us as we work collaboratively with inpatient and out-patient mental health teams to:

- Assess people's use of substances and their effects
- Work alongside you and your support people to improve your quality of life
- Work in partnership with the inpatient mental health team or CMHC clinician and psychiatrist

To access Dual Diagnosis speak with your mental health clinician. They can send us a referral on your behalf.

**Appointments**  
Mon-Fri 9am-4pm

**Walk-in clinic**  
is not available for Dual Diagnosis

We are a mobile team so can meet you at your home, at another service or wherever is comfortable for you.
