### CADS Medically Managed Withdrawal Services

are for people with a physical dependence on alcohol or other drugs (e.g. opiates, benzodiazepines, methamphetamine) who require medical support to withdraw (detox) or to reduce their use or to stabilise on medications.

Physical dependence is when people:

- Need to increase how much they take to get the same effect
- Experience physical and psychological withdrawal symptoms when they stop drinking or using drugs

CADS provide medically managed withdrawal support through two services:

- The Community and Home Detox Service (CHDS) team can support you at home or in the community
- The in-patient unit is for people needing 24 hour medical supervision

If you would like to know whether our services might be appropriate for you or someone you care about phone us on

09 815 5830 ext 42144

or visit a CADS walk-in clinic  
Mon-Fri 10am – 1pm

CADS South – Manukau

CADS Central – Kingsland

CADS North – Takapuna

CADS West - Henderson

This is a free service facilitated by professional alcohol and drug clinicians

Printed 04/22 by Community Alcohol and Drug Services
